

Editor's Note

Dear NASS Readers!

The current issue of *The Journal of New Approaches in Sport Sciences* (NASS) focusses on a wide gamut of topics. Three papers is based on spot management. Two papers reported studies on Motor Behavior, which on of them is interdisciplinary with Physiology. Four papers is devoted to the Sport Physiology; and Sport Management included six papers. As the content of all papers in this issue manifest, the studies were carried out in the Iranian context.

We'd like to invite the readers of this issue to give us their feedback on the papers from theoretical points of view and on the pragmatic insights they gained from the findings to promote their professional development.

At the present, the journal webpage to make submission, give feedback, and read printed articles online is *nass.atu.ac.ir* and you can contact us via email: *nass@atu.ac.ir*.

Best wishes

Bakhtyar Tartibian

Editor-in-Chief of *New Approaches in Sport Sciences*
