Archive of SID

(*Anas crecca*)

A large, semi-transparent watermark is positioned diagonally across the page. The text "Archive of SID" is written in a bold, sans-serif font. The letters are slightly faded, creating a watermark effect. The watermark is oriented from the bottom-left towards the top-right.

(*Anas querquedula*)
(*Fulica atra*)

$$\begin{aligned}
 & \quad \quad \quad (/ \quad) \quad \quad \quad (/ \quad) \\
 & (\quad) (\quad) \quad \quad \quad . \\
 & \quad \quad \quad) \\
 & \quad \quad \quad (\\
 & \quad \quad \quad) \\
 \end{aligned}$$

A large, faint watermark watermark reading "Archive of SID" diagonally across the page. The text is in a serif font and is partially cut off at the top right corner.

Archive of SID

()

A large, faint watermark is printed diagonally across the page. The text "Archive of SII" is written in a serif font, with "Archive" at the top left and "SII" at the bottom right, separated by a diagonal line. The watermark is light gray and has a slightly grainy texture.

www.SID.ir

The image shows a large grid of squares, approximately 20 columns by 20 rows. A single vertical black line runs from the top to the bottom of the grid, positioned roughly in the middle. There are several small black asterisks (*) placed at specific grid intersections. One asterisk is located on the central vertical line at the second row from the bottom. Another is at the same height on the central vertical line. On the left side, there are two asterisks in the fourth row from the bottom, one on each side of the central vertical line. On the right side, there are three asterisks in the fifth row from the bottom: one on the central vertical line, one two columns to its left, and one two columns to its right. The rest of the grid is empty.

The image shows a large grid of squares, likely a 10x10 or 11x11 grid based on the visible rows and columns. A single vertical black line runs from the top to the bottom of the grid, positioned roughly in the center. A diagonal watermark with the text "Archive of SID" is repeated across the grid. There are also several small black asterisks (*) placed at various points within the grid, notably in the lower-left quadrant and along the right edge.
